## ARTIST BIOGRAPHY

Thrush Byron Keats Holmes — his middle names drawn from the great Romantic poets — is a Toronto-based self-taught painter who has built one of the most distinctive and commercially recognised practices in contemporary Canadian art. Holmes entered the Toronto art scene with an immediate impact, opening the Thrush Holmes Empire on Queen West in 2007 and achieving overnight success. His work is held in the collections of Elton John's AIDS Foundation, Sony Music, DreamWorks Studios, and Def Jam Records. He has had solo exhibitions at PULSE Miami and the Mike Weiss Gallery in New York, and public installations at Galleria in the Park (Toronto) and Cleveland Cavaliers headquarters. Holmes works across oil, spray paint, neon, resin, and mixed media, combining traditional motifs — vases, nudes, landscapes — with a punk-inflected energy and glowing neon integration that is entirely his own.

## ARTWORK DESCRIPTION

Luminous Ground II is one of Holmes's most abstractly expansive works in the collection — the resin medium deployed here at the larger 58 x 86 inch scale to create a field of chromatic depth and surface incident that rewards extended looking. Holmes's treatment of the resin at this scale transforms the support into something approaching a landscape — a luminous ground in which figure and mark coexist with equal authority. The title reflects Holmes's sustained interest in the quality of light as both physical and metaphorical subject.

## VALUATION

**Estimated Gallery Value:** \$35,000 – \$40,000 USD

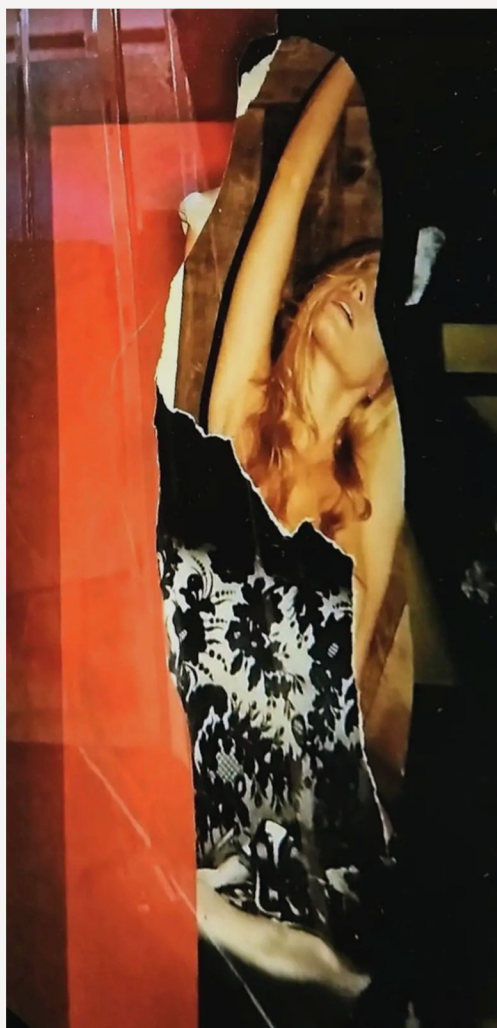

**Insured Value:** \$65,000 – \$75,000 USD

## CURATORIAL NOTES

Luminous Ground II is part of Holmes's highly collected Model series — a body of work that has achieved strong recognition among collectors of both contemporary Canadian painting and luxury-influenced art. The resin medium is one of Holmes's most distinctive material signatures and is central to the series's visual identity.
